

Dussa Ganesh

Mainframe Developer | COBOL · JCL · DB2 · VSAM · z/OS

+91 8179504819 | ganeshdussa20@gmail.com | Hyderabad, India (Open to Relocation) | [linkedin.com/in/ganeshdussa](https://www.linkedin.com/in/ganeshdussa)

PROFESSIONAL SUMMARY

Mainframe Developer and Computer Science graduate with hands-on experience in COBOL, JCL, DB2, and VSAM on IBM z/OS, plus a working foundation in SQL, relational database design, and Git. Proven ability to design and execute end-to-end batch processing pipelines, with basic exposure to VisionPLUS (CMS module) and Python for data handling. Recognized IBM Z & LinuxONE Community Contributor (2026, Level 2 Badge), ranked #31 globally on the IBM Z Advocacy Hub leaderboard, and published a widely read technical article on COBOL development. Currently expanding into mainframe modernization, building hands-on familiarity with Zowe for cloud-based z/OS tooling and integration. Eager to apply mainframe fundamentals and enterprise development best practices as a Graduate Engineer Trainee / Junior Software Engineer.

TECHNICAL SKILLS

Programming Languages: COBOL, SQL (Embedded SQL), Python (Data Processing), Java, PL/I (basic knowledge)
Mainframe Platforms: IBM z/OS, JCL, DB2 for z/OS, VisionPLUS (CMS module – basic understanding), VSAM (KSDS, ESDS, RRDS), Non-VSAM (PS), CICS (basic knowledge)
Currently Learning: Mainframe Modernization with Zowe (Zowe CLI, Zowe Explorer) and cloud integration for z/OS
Database: DB2, SQL, relational database concepts (Load/Unload, table design, query writing)
Tools & Utilities: ISPF, SPUFI, DITTO, JES2, IEBGENER, SORT, IDCAMS, ChangeMan, Git/GitHub, IBM Rational Tools – IDz/RDz (basic knowledge), ServiceNow (awareness)
Core Concepts: Batch Processing, Sequential File I/O, Object-Oriented Programming, SDLC, Data Validation, Report Generation, Production Support, Mainframe-to-Java Integration
AI & Emerging Tools: Familiarity with AI-assisted development tools (GitHub Copilot, Claude) for code review and documentation support
Other: JavaFX, Windows 10/11

PROJECTS

Mainframe Batch Processing & DB2 Operations | COBOL, JCL, DB2, VSAM

- Developed COBOL programs on IBM z/OS including PERFORM loops, COMP variables, 88-level condition names, and structured file I/O across VSAM (KSDS/ESDS) and non-VSAM (PS) datasets
- Designed and executed multi-step JCL jobs for dataset allocation, sorting, merging, and file processing using IEBGENER, SORT, and IDCAMS utilities to build fully functional batch pipelines
- Managed DB2 tables with 50+ test records via Load/Unload operations and embedded SQL (SPUFI), achieving 100% verified data integrity; bridged COBOL business logic with Java application layers
- Documented the full hands-on development journey in a widely read Medium technical article

Employee Payroll Management System | Java, JavaFX, SQL

- Engineered a desktop payroll application using Java with a JavaFX-based GUI for employee salary data input and display
- Automated salary calculation logic (gross pay, net pay, overtime, deductions) with input validation, using SQL to store and retrieve payroll records
- Designed a normalized relational schema for employee, salary, and department records, applying primary/foreign key constraints to maintain data integrity
- Implemented CRUD operations (add, update, delete, search employee records) with JavaFX event handlers and form validation to prevent invalid or duplicate entries
- Generated printable payslip and payroll summary reports, and tested the application across sample datasets to verify calculation accuracy

IBM Z COMMUNITY RECOGNITION

IBM Z Advocacy Hub — Global Rank #31 Leaderboard

Q1 2026

- Earned 225 Advocacy Points through active contribution to the IBM Z & LinuxONE community
- Recognized among top global mainframe advocates across industry professionals and consultants

IBM Digital Badge — IBM Z and LinuxONE Community Contributor (Level 2)

2026

- Awarded by IBM for completing criteria under the IBM Digital Badge program; verified via Credly

EDUCATION

Narsimha Reddy Engineering College, Hyderabad

2022 – 2025

B.Tech in Computer Science Engineering

CGPA: 7.02 / 10.0

Arjun College of Technology and Sciences, Hyderabad

2019 – 2022

Diploma in Electrical Engineering

CGPA: 6.67 / 10.0

S.T. Anne's High School, Nakrekal

2019

Secondary School Certificate (SSC)

CGPA: 9.2 / 10.0

CERTIFICATIONS & TRAINING

IBM Z and LinuxONE Community Contributor – Level 2 Digital Badge (IBM, 2026) — Verified via Credly

Goldman Sachs Engineering Virtual Experience (Forage) — Simulated SDLC: requirements, design, development, testing, and deployment

IBM Mainframe Fundamentals (Self-Directed) — JCL, COBOL program structure, and DB2 relational database concepts
